

GUIDED MISSILE AND ASTRONAUTICS INTELLIGENCE COMMITTEE

10 April 1959

MEMORANDUM FOR: Chairman, Exchange of Information Working Group
GMAIC

SUBJECT: Letter of appreciation

1. At its meeting of 27 April 1959, the Guided Missile and Astronautics Intelligence Committee (GMAIC) reviewed the Status Report on Progress of 6 August 1958 from your working group. The Committee was unanimous in its expression of appreciation for the work and accomplishments of your group.

2. The careful definition of areas of impedance in the free flow of intelligence data compiled by your group is of considerable value. Recognition of these areas in itself accomplished a major portion of the objectives intended by GMAIC. As for your recommendations, I believe the endorsement of your report by the entire GMAIC membership served to notify, at an effective level, all major collection and dissemination agencies of the shortcomings existent in the free interchange of intelligence data. Having, therefore, satisfactorily completed the mission intended, the GMAIC agreed to the dissolution of the Exchange of Information Working Group. Any specific problem arising will be handled at the GMAIC level.

3. On behalf of the GMAIC membership, I wish to express my appreciation to the Chairman and members for a job well done.

EARL MCFARLAND, JR.
Colonel, USAF
Chairman
